WORK EXPERIENCE

TEKNIX Technology Joint Stock Company.   04/2025 - 06/2025

INTERN REMOTE

Project: Human Resource Management System HRMS
- Developed a human resource management web application with features including department, employee, attendance, salary, and leave management.
- Built RESTful APIs using Node.js and Express.js.
- Implemented authentication using JWT and stored data with MongoDB.
- Contributed to the design of the admin dashboard and CRUD pages.
- Collaborated via GitHub and tested APIs using Postman.

Tech Stack:
- Frontend: Vuetify, Tailwind CSS.
- Backend: Node.js, Express.js.
- Database: MongoDB.
- Others: GitHub, Postman.

PROJECTS

Clothing E Commerce Website   06/2025 - 09/2025

Link: https://github.com/minhtri2404/Ecommerce_Web

- Developed a full-featured e-commerce platform for clothing retail, including both customer site and admin dashboard.
- Backend: Built with Node.js + Express.js, implementing RESTful APIs for products, users, orders, and discount codes.
- Frontend: Designed with Vue.js + Tailwind CSS, ensuring responsive and user-friendly interface.
- Database: Used MongoDB to store products, users, orders, and discounts...
- Tools: Managed source code with GitHub and tested APIs with Postman.
- Main Features:
  - Admin Dashboard: manage categories, products, customers, orders, discount codes, and articles; full CRUD operations; role-based access control; overview statistics for revenue, orders, and customers.

  - Customer Site: product listing, product details, category filtering; add to cart (login required); checkout with **COD or MoMo,** view order history and status updates.
- Highlights:
  Implemented JWT Authentication for secure access.
  Optimized API performance and MongoDB queries.
  Built modern, reusable frontend components with Vue.js + Tailwind CSS.

SKILLS

Programming Languages	JavaScript
Web Development	Node.js, Express.js, Vue.js, Tailwind CSS
Databases	MySQL, MongoDB
Tools & Collaboration	GitHub, Postman

EDUCATION

Gia Dinh University GDU   2022 - 2025

Bachelor of Information Technology – Major in Software Engineering - GPA 7.71
